Garden Accessories

Our comprehensive selection of garden accessories are designed to elevate your gardening experience. Whether you're nurturing a small balcony garden or maintaining a sprawling backyard oasis, we have everything you need to cultivate and care for your plants.

Our range includes essential tools for plant support, precision thermometers to monitor your garden's climate, durable hanging hooks for versatile display options, efficient watering products to keep your plants hydrated, and a variety of specialised plant care items.

Discover how our products can make gardening more enjoyable and successful, no matter the size or scope of your green space.

Indoor Planters

Indoor plants offer numerous benefits such as boosting your immune system, enhancing productivity, improving air quality, reducing allergies, promoting better sleep, and beautifying indoor spaces.

Our Indoor Planters come in a diverse array of sizes, designs, and finishes to suit your unique decorative preferences.

Whether you prefer vibrant glossy metallic designs with intricate geometries, larger planters with an aged patina, hanging or elevated styles, or natural material finishes, our collection caters to every taste and style.

Hikari Renovation

The Japanese word for light is "Hikari".

As our new range of garden lighting has been designed in Japan by Takasho Digitec, we felt it apt to call this range "Hikari - Renovation".

Hikari Renovation uses a Low Volt system. It is designed so that lighting installation work can easily be installed by DIY gardeners and uses new LED lighting technology for optimal brightness. The cables and lights are easily connected thanks to the pre-installed cable connector plugs (no messy or complicated wiring)

You can commence your lighting project with the basic starter kit which allows you to plan and install an effective lighting display and then should you wish to add more lights to expand your stunning display, there are individual lights, extension cables and connectors available to easily achieve this.

Three starter kits with everything you need to get started in one box that can be selected depending on the type of lighting effect you want to achieve:

Lighting for Wall (225lm)

Create a brilliant display by projecting the silhouette of your favourite tree or garden sculpture against a wall, fence or screen.

Lighting for Tree (240lm)

One of the classic uses of this type of light is uplighting trees in gardens. If your tree has an open, leafy structure, you can install the light close to the base of the trunk. The angled light illuminates the central branches and leaves of the tree making a stunning display.

Lighting for Ground (187lm)

Ground lighting is most suitable for lighting up low growing plants, flowers and garden paths. The light spreads to a range of about 90cm in diameter, so when installing two or more lights, you can create shades of bright and dark areas. This type of light plays with shadows beautifully.

Our Starter Kits include:

2 x Lights Each with 5m cable

1 x Controller Turns the lights on automatically when dark and has a built in timer to turn off each night after a set number of hours. Set and forget - no need to manually turn on and off each night.

1 x Additional Extension Cable 5m in length

1 x 3 way Branch Connector Direct your lighting to various spaces

2 x Replaceable LED Globes Easy to replace should the need arise

All components are available for purchase separately, so that you can easily add on to the basic Starter Kit and you can install up to 8 assorted lights, with a total cable length of 30m per Controller.

DIY lighting is a fast, relatively inexpensive way to change your backyard from run of the mill to magical.

This lighting range is supported with user information via the website: hikarenovation.com which shows installation instructions, ideas on techniques that can be used and short videos.

Images and examples of completed lighting projects can be seen via the [hikarenovation](#) facebook and instagram pages.

A Taste of What's Next: The Essence of Japan | Late 2026

Introducing EVER BAMBOO™

Premium Synthetic Bamboo Fencing System
Inspired by Kyoto Craftsmanship

EVER BAMBOO™ combines the benefits of cutting-edge technology and materials with the proven techniques of traditional craftsmanship. This gives the panels – made of specially reinforced ASA resin – numerous advantages, allowing for a wide range of applications. At the same time, the natural bamboo atmosphere is preserved.

The essence of Japan

 Made in Japan Quality

We have carried on the timeless techniques of traditional Kyoto craftsmen to create elegant product solutions that replicate the look of natural bamboo fences and decorations.

Finest details

Natural colour tones interact with three-dimensional shapes to form beautifully textured surfaces that exude understated elegance and subtle expressiveness.

This is how the Japanese concept of "Wabi-Sabi" is artfully brought to life in these products.

YEARS
WARRANTY

- on 1. the fading of
the colour
and 2. the cracking of
the panels

Durability

The superior quality of EVER **BAMBOO™** ensures a resilient finish that withstands extreme temperature fluctuations, rain, and intense sunlight while maintaining its pristine appearance.

Texture

The three-dimensional profile creates subtle depth and shadows, resulting in a surface that authentically replicates the look and feel of natural bamboo.

Material

Its robust composition guarantees exceptional structural stability and long-lasting resistance to the elements.

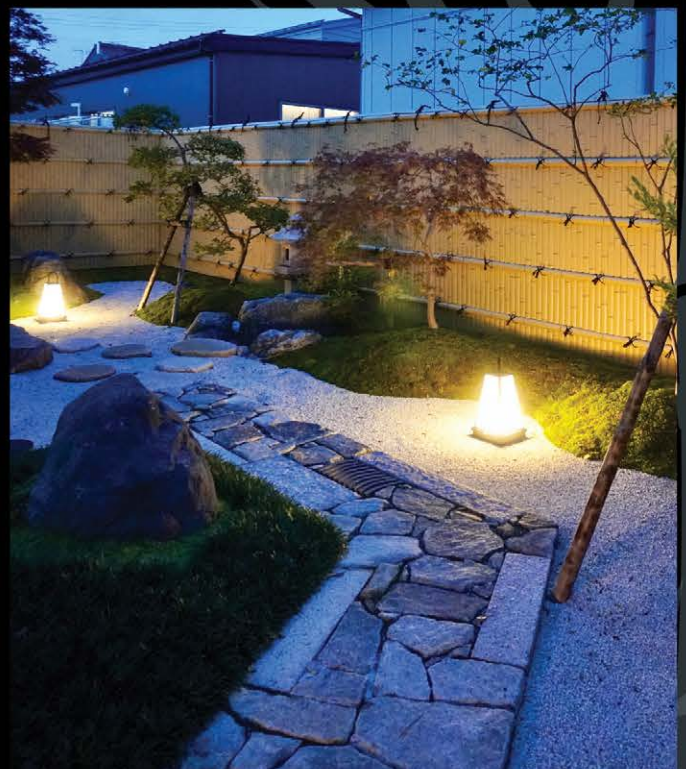

Design

Each piece is hand-finished, reflecting an uncompromising attention to detail and a commitment to aesthetic excellence.

Emphasis and texture

Transform your garden into a space that radiates the ambience of traditional Japanese design. EVER **BAMBOO™** was developed precisely for this purpose, crafted to the highest quality standards and rich in detail.

EVER **BAMBOO**™ MATERIAL

Beautiful natural appearance

A bamboo fence is an essential part of any traditional Japanese garden. However, it can be difficult to preserve the natural beauty of real bamboo. To overcome these challenges, we developed the EVER **BAMBOO**™ product range, which mimics natural bamboo while offering excellent resistance to mould, corrosion, and discolouration, ensuring lasting beauty.

Subtle 3D contours

The three-dimensional surface structure creates subtle contours that shift with the light, enhancing the visual texture of the bamboo fence throughout the day.

Realistic section knots

The distinctive texture and appearance of natural bamboo have been meticulously recreated to reflect the original's unique characteristics. Each bamboo section features its own detail and expression, representing refined emotion and harmony.

Durable and sustainable

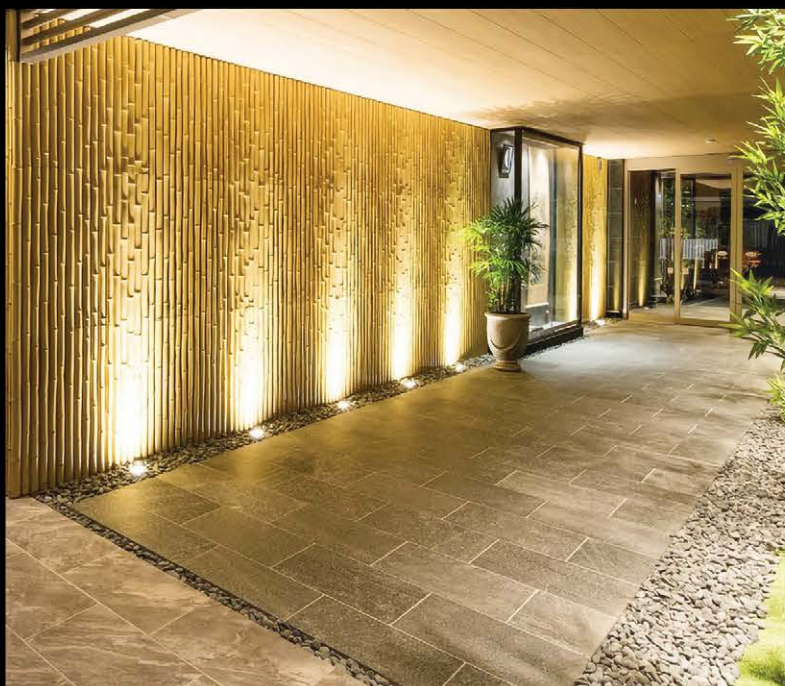

EVER **BAMBOO**™ incorporates specially reinforced ASA resin – a premium material used globally in a variety of industries. This advanced material is highly durable and weather-resistant, with outstanding resistance to corrosion and discolouration, and ensures a consistently beautiful appearance.

Highly workable

Exceptionally durable, yet flexible and easy to process – ideal for cutting and handling.

 Made in Japan Quality

Bring the Essence of Japan to Your Next Project

Architectural elegance, crafted in Japan, and engineered to endure the harsh Australian climate.

While our full Bamboo ASA Resin cladding and garden accessory range officially arrives in late 2026, you can secure your piece of this exclusive collection today.

Contact our Sales Team at sales@takasho.com.au to register for preview access, receive design inspiration updates, and be the first to know when pre-orders open.

Solar Lighting

Our Solar Lights harness sunlight to charge their built-in batteries, automatically activating when ambient light levels decrease, providing optimal illumination for gardens and pathways.

They blend timeless traditional design with advanced modern technology and durable materials, offering the perfect blend of style and functionality!

Multi Use Pumps

Enhance your garden pond or aquarium with our versatile water pumps, perfect for aquariums, garden fountains. Ideal for indoor fountains and smaller ponds or water features, they're essential for garden enthusiasts, hobbyists, and aquarium owners seeking efficiency.

Low voltage models feature smaller cables that easily thread through narrow pipes and hoses, simplifying installation without the need for cable cutting.

Choose from a range of models to suit your flow rate and pressure needs.

The VegTrug Range

Discover the transformative potential of gardening with the VegTrug range of products, designed from inception to empower individuals of all ages and abilities to cultivate their own vegetables, no matter the space available.

Our commitment to sustainability is woven into every aspect of our products, from sourcing wood exclusively from Forest Stewardship Council® certified suppliers to situating our manufacturing facilities near these sources.

With a diverse array of offerings, VegTrug ensures you have everything necessary to embark on your gardening journey, whether you're a seasoned enthusiast or just beginning to explore the joys of homegrown produce.

From compact options ideal for balconies to larger models accommodating extensive planting, VegTrug is your partner in creating thriving, accessible gardens that nourish both body and mind.

VegTrug™

The mark of responsible forestry

VegTrug Augmented Reality

VegTrug supports everyone, whether your garden is big or small. Our planters are designed for a whole variety of different spaces, from tiny balconies to huge lawns.

To help find the perfect product for your space, we've created an Augmented Reality (AR) experience to help you know exactly what you can fit into any space.

VegTrug Wooden Barrel and Trough

Our Barrel and Trough's tough plastic base allows it to survive harsh weather that would normally cause rot in the base of a fully wooden barrel. The design of the base also lets us do more, allowing for aeration and drainage around the roots to promote strong, healthy growing.

VegTrug Planters

VegTrug™
See what you can grow

VegTrug Planters provide an ideal solution for growing everyday crops in raised beds, perfect for placement on patios or balconies near your kitchen. They elevate crops to a comfortable height for easy harvesting, crafted from durable 100% FSC® wood treated with a water-based, food-safe preservative for healthy, culinary-ready crops.

VegTrug Self Watering Kits

The VegTrug Self Watering system submerges inside many VegTrug product types, enabling any existing VegTrug to become (almost) fully-automated. Large reservoirs enable each outfitted planter to support all growth with simple capillary action, saving you heaps of time in the garden!

VegTrug

VegTrug™
See what you can grow

The VegTrug, our flagship outdoor product, epitomises our legacy. Designed to democratise gardening, our Classic VegTrug transforms small spaces like balconies and courtyards into thriving gardens.

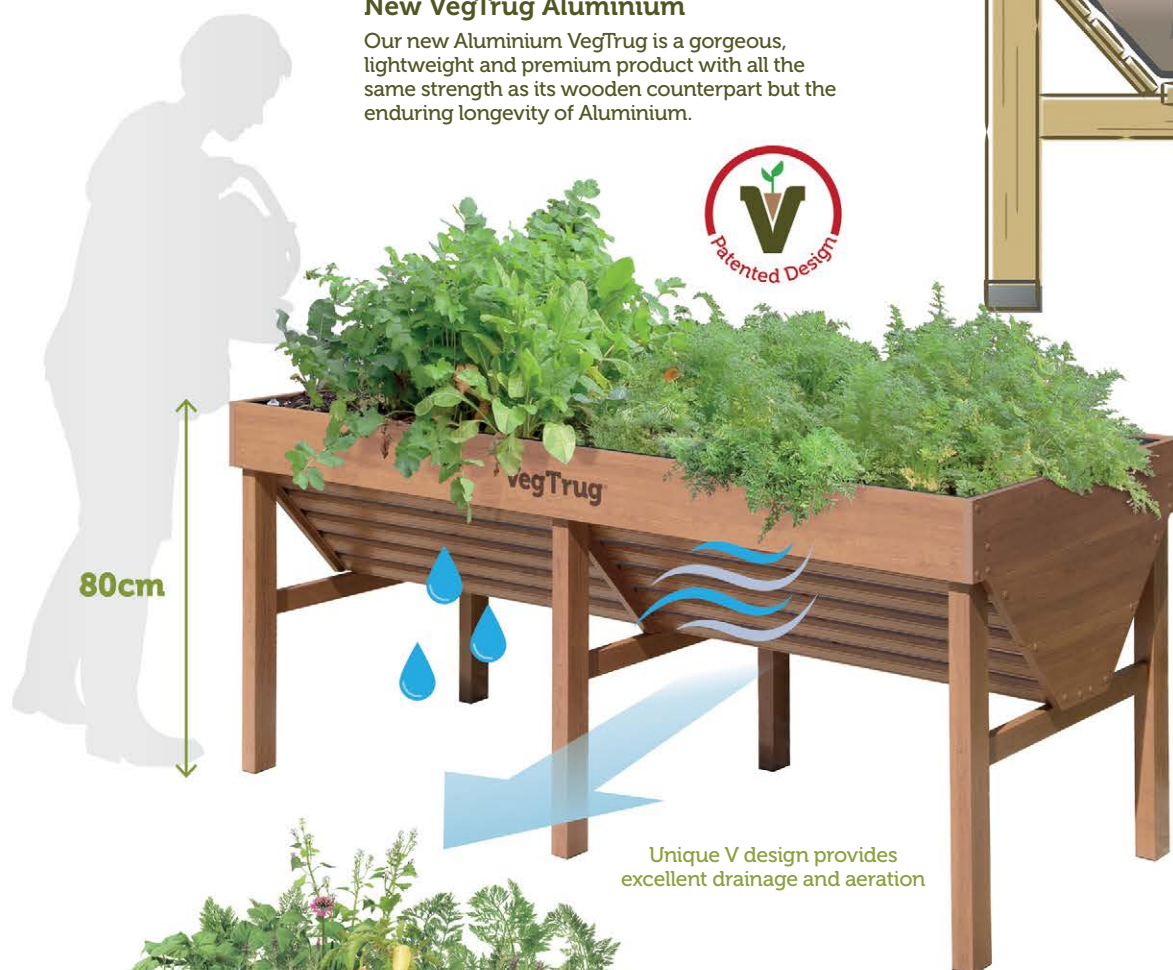

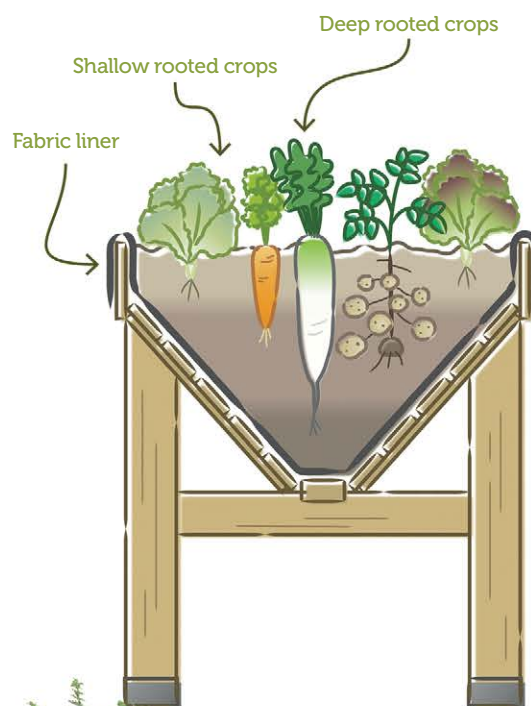

Its unique V-shape accommodates both shallow and deep-rooted plants, maximising growing potential without space wastage.

Elevated for ergonomic benefits, it offers easy access for seated or wheelchair users.

The design deters pests and enhances plant health with superior aeration and drainage, ensuring robust growth and flavourful crops.

New VegTrug Aluminium

Our new Aluminium VegTrug is a gorgeous, lightweight and premium product with all the same strength as its wooden counterpart but the enduring longevity of Aluminium.

Ergonomic design increases access and reduces strains

VegTrug Poppy & Felt Planters

The Poppy is a compact, folding VegTrug, ideal for growing all your daily-use produce, flowers and mainstay leafy greens.

A perfect grow-your-own companion for cooking, it fits on a patio or balcony; always within an arm's length of the kitchen.

The Poppy stands at 79cm high, an ideal height that allows an easy harvest without the need for crouching down or compromising posture. It holds around 50 litres of compost.

Felt is an ideal planting material, offering a breathable container material that encourages healthy roots with excellent drainage as well. Portable and lower cost than other materials, our felt planters are a colourful addition to your garden.
